

115 Gallery Windows

Call for Proposal

Artists or artist-led teams are invited to submit site-specific installation proposals for The Ann Arbor Art Center's 115 Gallery Windows. The alcove windows comprise both sides of the entrance facing Liberty Street and allow for a front and side view into the two spaces. Candidates must propose installations that activate both alcoves and engage the street-level audience.

Submissions are accepted in any artistic discipline including mixed-media installation, digital media, or performance, in addition to traditional modes of art-making such as painting, photography, textiles, ceramics, or sculpture. Selected projects will strongly consider the context and location of the gallery windows as well as the relationship of the work to the viewing audience. Proposals are accepted on a rolling basis and are reviewed by the Art Center's Gallery team each month. Works must be original within the last year and must not have been previously shown in any exhibition at the Ann Arbor Art Center.

Submission Requirements:

- Brief description of the proposed project. Include details of artwork materials, hardware necessary for installation and approximate dimensions.
- 3-5 images in any combination of reference, in-process, or sketches.
- Artist links to website/ social media pages.

At the back of each alcove is a white curtain separating it from the central area of the gallery. Dimensions are as follows:

Left Alcove Facing Liberty

Width - 82 in

Depth - 66.5 in

Height to Transom - 107 in

Height to Ceiling - 144 in

Right Alcove Facing Liberty

Width - 74 in

Depth - 66.5 in

Height to Transom - 107 in

Height to Ceiling - 144 in

To submit, email proposals to **Alison** - afranco@annarborartcenter.org. (Please note that submission does not guarantee artwork acceptance and incomplete proposals will not be considered.)
