

Experimental Casting | Student Supply List

8 weeks | Alina Goryeava

Required Materials:

- Sketchbook
- Pens/pencils
- Personal design tools if preferred
- Metals:

Students are responsible for providing their own silver/other desired metal casting grain for this course. Bronze casting grain will be available for use during the first few sessions. All other materials will be provided.

- ❖ [Rio Grande 0.925 Sterling Silver Casting Grain](#)
- ❖ [Armstrong Sterling Silver Casting Grain](#)
- ❖ [Rio Grande Ancient Bronze Casting Grain](#)
- ❖ [Rio Grande 14K Yellow Gold Casting Grain](#)

Optional Materials:

- Synthetic spinel or CZ
- All current works in progress.
- Any wire, stones, findings, metal elements, or components you are currently using.
- Any materials (especially organic) that you would like to experiment with or incorporate into casting-based work.
- Personal soldering materials if preferred.

Please bring all supply questions to the first session of class. The amount of grain you purchase will be dependent on your design ideas. It is okay to wait to purchase grain until after the first session of class.
